DIRECTIONS - For complete instructions please consult manufacturer. Product may be applied with a backpack sprayer, hand sprayer, or equivalent. Simply apply an even coat of product to material to be protected. Product can withstand sun and wind indefinitely. Material will be protected until product is washed away with a quarter inch or more of precipitation.

PLEASE NOTE - Do not freeze product. Store above 40F. Cooler temperatures cause product to thicken, so it is recommended that product be warmer than 50F for optimal application. Always agitate product before use.
