

SAFETY DATA SHEET

SECTION I - IDENTIFICATION

Product Identifier: GreenFire® Firefighting Foam (GFFF)

Recommended Use:
Designed for Class B fires. Fluorine free alternative to PFAS based foams.

Manufacturer:
Fire Suppression Innovations
101 S. Kraemer Blvd. Suite 100 Placentia, CA. 91024
Telephone number: +1 (888) 766 7327

In case of emergency:
Call your physician or Poison Control Center
1-800-222-1222T

SECTION II HAZARDS IDENTIFICATION

Hazard Statements:

H303 May be Harmful if Swallowed
(Category 4-Least Concern)

H320 Causes Eye Irritation
(Category 2B – Least Concern)
H361 Suspected of damaging fertility or the unborn child
(Category 2-Least Concern)

Precautionary Statements:

P201: Do not handle until all safety precautions have been read and understood.

P264: Wash thoroughly after handling.

P280+281: Wear personal protective equipment as required. Wear eye protection.

P305+P351: If in eyes: Rinse cautiously with water for several minutes.

P308+P313: If exposed or concerned: Get medical advice or attention.

SECTION III - COMPOSITION

Ingredients: Proprietary mixture/trade secret as defined by 29CFR 1910.1200
Contains natural boron food safe wetting agents, and anionic detergents.

SECTION IV - FIRST AID MEASURES

Skin Contact: Wash with water. Prolonged exposure may cause dryness and irritation.

Eye Contact: Flush with water. Seek medical attention if irritation persists.

Inhalation: Remove person to fresh air. If symptoms such as nose or throat irritation are observed, seek medical attention.

Ingestion: If large amounts are swallowed (more than 6 tablespoons), give two glasses of water or milk to drink and seek medical attention. Never give anything by mouth to an unconscious person. Likely to be emetic. If a victim is unconscious make sure that their airways are clear.

Symptoms of eye contact: Redness, tearing, burning.

Symptoms of ingestion: Nausea, Vomiting, diarrhea.

Indication of immediate medical attention or special treatment needed:
No data available.

SECTION V FIREFIGHTING MEASURES

Product is non-flammable, non-combustible, non-explosive, intrinsically flame retardant. No special protective equipment, precautions, hazards, or extinguishing media.

SECTION VI ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment, and emergency procedures:

Product can be very slippery! Use extreme caution walking on smooth surfaces that are wet with GreenFire®.

Methods and materials for cleanup:

Sorbents may be used. Prevent spills from reaching waterways. Disposal is to be performed in compliance with all federal, state and local laws. Solutions of detergents may be allowed to be flushed down sewer. First check with your local water treatment plant. In case of large spillage into water, advise local water authorities that the affected water should not be used for abstraction of potable water until natural dilution returns boron value to normal background environmental level.

SECTION VII HANDLING AND STORAGE

Precautions for safe handling: No unusual precautions necessary.

Precautions for Storage: No unusual precautions necessary

SECTION VIII EXPOSURE CONTROLS / PERSONAL PROTECTION

Occupational Exposure Limits: None of the ingredients have assigned exposure limits.

Engineering controls and Personal Protective Equipment:

Always use eye protection and suitable gloves. In circumstances where large amounts of mist is likely to be created, use appropriate ventilation and/or particulate respirator type N95 or better.

SECTION IX PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Transparent straw colored or amber liquid

Odor: Insignificant

pH: 6.8-7.6

Freezing point: ~30F

Boiling point: ~215F

Flash point/Flammability/Auto ignition temperature: non-flammable

Evaporation rate: similar to water

Vapor pressure: similar to water

Vapor density: similar to water

Relative density: 1.03g/cc

Solubility: miscible in water and alcohols

Partition coefficient: hydrophilic

Decomposition temperature: dehydration begins at approximately 215F

Viscosity: variable non-Newtonian

SECTION X STABILITY AND REACTIVITY

Reactivity: No additional information.

Chemical Stability: Stable under normal conditions.

Possibility of hazardous reactions: Avoid contact with strong reducing agents such as metal hydrides or alkali metals. These can react to generate flammable hydrogen gas.

Conditions to avoid: Avoid incompatible materials.

Incompatible materials: Strong reducing agents such as alkali metals, metal hydrides.

Hazardous decomposition products: Hydrogen, boranes, ammonia.

SECTION XI TOXICOLOGICAL INFORMATION

Acute toxicity: Low acute toxicity. LD50 in rats is over 70,000 mg product/kg of body weight.

Skin corrosion/irritation: Prolonged or repeated skin contact as from clothing wet with the product may cause dermatitis.

Serious eye damage/irritation: Eye irritant.

Respiratory or skin sensitization: Not a skin sensitizer.

Germ Cell mutagenicity/carcinogenicity: No component in this product in concentrations of %0.1 or greater, is identified as a carcinogen, potential carcinogen, anticipated carcinogen, or probable carcinogen according to OSHA, NTP, ACGIH, and IARC.

Reproductive Toxicity: A recent epidemiology study under the conditions of normal occupational exposure indicated no effect of fertility. Animal feeding studies at high doses (doses that are many times those which humans would normally be exposed to) have demonstrated effects on fertility and testis as well as developmental effects on the fetus including fetal weight loss and minor skeletal variations.

Specific Target Organ Toxicity:

-single exposure: N/A

-repeated exposure: N/A

Aspiration hazard: Low acute inhalation toxicity; LC50 in rats is 38,000mg/m³

SECTION XII ECOLOGICAL INFORMATION

Part 1: Non-naturally occurring portion of product

Persistence and biodegradability: This portion of the product biodegrades rapidly with an average of 95% decomposition after 28 days.

Bio-accumulating potential: Not significantly bio-accumulative.

Mobility in soil: Water soluble and is leachable through normal soil.

Other Adverse Effects: If sprayed on green foliage, this portion of the product contains soaps that will interfere with the natural waxy coating of plant leaves. This will cause the leaves to dehydrate, wither, and die. Do not spray this product on green foliage.

Part 2: Naturally occurring portion of the product

Persistence and biodegradability: This portion of the product is a ubiquitous and naturally occurring compound. It does not biodegrade but rather naturally disperses until reaching normal environmental levels.

Bio-accumulation potential: Not significantly bio-accumulative

Mobility in soil: Water soluble and is leachable through normal soil.

Other Adverse Effects: No data available

Algal toxicity: OECD 201 Method, *Pseudokirchneriella subcapitata*, 72hrs, EC50=430 ppm

Invertebrate toxicity: OECD 202 Method, *Daphnia magna*, 48hrs, LC50=345 ppm

Fish Toxicity: OECD 203 Method, *Pimephales promelas*, 96hrs, LC50=54 ppm

Other Adverse Effects: No data available.

SECTION XIII DISPOSAL CONSIDERATIONS

Disposal considerations: Always dispose of in accordance with all local, state, and federal regulations. Solutions of detergents may be allowed to be flushed down sewer. First check with your local water treatment plant.

SECTION XIV TRANSPORT INFORMATION

US DOT: Not dangerous goods.
IMDG: Not dangerous goods.
IATA: Not dangerous goods.

SECTION XV REGULATORY INFORMATION

SARA 302: No chemicals in this material are subject to the reporting requirements of Sara Title III section 302.

Sara 313: No chemicals in this material are subject to the reporting requirements of Sara Title III section 313.

California Prop. 65 Components: This product does not contain any chemicals known to the State of California to cause cancer, birth defects, or any other reproductive harm.

SECTION XVI OTHER INFORMATION

Disclaimer of liability

The information in this SDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its accuracy, reliability

or completeness. The conditions or methods of handling, storage, use or disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. It is the user's responsibility to satisfy themselves as to the suitability and completeness of such information for their own particular use. This SDS was prepared and is to be used only for this product. If the product is used as a component in another product, this SDS information may not be applicable. Please note that the provision of this SDS being not mandatory, only an English version of this document is available.
